Study Title: Surveys about General Perceptions of Robots

Principal Investigator: Prof. Naomi Fitter

Version: 07 May 2019

We are inviting you to take part in a research study.

Purpose: This study is about how people perceive images and recordings of robots.

We are asking you if you want to be in this study because you are an adult with normal or corrected-to-normal vision.

Students and advisees of Prof. Naomi Fitter should not enroll in this study.

Voluntary: You do not have to be in the study if you do not want to. You can also decide to be in the study now and change your mind later. We may keep and use information that we collected about you while you were in the study unless you ask for that information to be destroyed.

Your decision to participate or not to participate will not impact your employment or benefits through Oregon State University. Your decision not to participate or to participate will also not impact your grades, relationship with your instructors, or standing at Oregon State University.

Activities: The study activities include completing a survey in which you will answer multiple-choice and free-response questions about images and recordings of robots.

Time: Your participation in this study will last about fifteen minutes.

Risks: The possible risks or discomforts associated with being in the study include those you encounter in everyday interactions and conversations. There is a chance that you will be displeased with one or more of the robot images or recordings.

Another risk, although unlikely, is that the survey responses collected during the study could be accessed by individuals outside of the research team. We will do our best to avoid this by maintaining the data in locked cabinets and on secure, password-protected computers.

Benefit: This study is not designed to benefit you directly. However, our findings from this study will help us understand how we can design better robots for interacting with people.

Confidentiality: We plan to make the results of this study public, but we will not include your name or other information that identifies you. There is still a chance that we could accidentally disclose information that identifies you.

To reduce the chance of this, we will not record your name on this consent page. Other collected data will be de-identified by it being stored based on a subject number code rather than your name. Only research team members will have access to your raw survey responses. Data that is not being used for scientific communication will be destroyed after a required audit-accessible three-year period. Information collected from you for this research will not be stored or distributed for future use.

Payment: You will not be compensated for your participation in this research study, but you will receive

credit through the SONA system for your participation.

Study contacts: We would like you to ask us questions if there is anything about the study that you do not understand. You can call us at (541) 737-9193 or email us at fittern@oregonstate.edu. You can also contact the Human Research Protection Program with any concerns that you have about your rights or welfare as a study participant. This office can be reached at (541) 737-8008 or by email at IRB@oregonstate.edu

Consent: Rather than collect your name, we will now ask you to summarize the purpose of the study below. Please use at least 50 characters.

- ☐ By checking the checkbox at left and continuing the survey, you are confirming that this study purpose is clear to you and that you agree to take part in this study.

Introduction

Thank you for participating in this study. In this study, you will be provided with various videos of a small robot interacting with a user. These videos are taken from the point of view of the user.

An example of the robot and point of view are shown below.

We will be recording you intermittently throughout the survey. Specifically, while filling out demographic questions and while watching the videos, and then ask you to answer some questions based on the video.

We appreciate your care in watching each video and providing thoughtful responses.

We will first ask you some basic demographic information.

Simple Demographics

How old are you (in years)?

With which of the following gender identities do you most closely identify?

- ☐ Female
- ☐ Genderfluid
- ☐ Male
- ☐

Non-binary

☐ Agender

What is your hometown (city, state, and country where you spent most of your childhood)?

With which racial and ethnic identities do you identify?

- ☐ Asian (East Asian; e.g., of Chinese ancestry)
- ☐ Asian (South Asian; e.g., of Indian ancestry)
- ☐ Asian (Southeast Asian; e.g., of Vietnamese ancestry)
- ☐ Asian (West Asian; e.g., of Turkish ancestry)
- ☐ Black
- ☐ Hispanic
- ☐ Indigenous
- ☐ Pacific Islander
- ☐ White
- ☐ Other (please specify):

With which national identities do you affiliate?

- ☐ Canadian
- ☐ Mexican
- ☐ United Statesian (commonly referred to as "American")
- ☐ Other (please specify):

Camera Test

Please test the video recording functionality by starting the below recording.

If a pop-up appears asking to allow permission, please allow access to your webcam and check the box to "always allow" to prevent further pop-ups.

Please note that the webcam will record throughout the survey, but will not show the above display.

Robot Association

Please answer the following questions about the robot pictured below.

How much do you associate/not associate the following words with the robot pictured above:
